

Digital Marketing and Communications Officer

About Equality in Tourism:

Equality in Tourism is a small, award-winning organisation challenging the status quo within the global tourism and hospitality sectors. Our team of two directors, four trustees and four volunteers are working to achieve a major change in how tourism companies and hotels operate so that gender equality is respected and mainstreamed. We are also committed to enabling women and their families in local communities to better benefit from the positive opportunities that tourism brings rather than be abused by it. Too often tourism destroys local environments, over consumes water and displaces people from their homes. Our team are all experienced in the sustainable tourism field, and we know that tourism will never be truly sustainable until there is gender equality.
